

The New York Property Tax Cap Coalition

www.TaxCapNow.org

The New York Property Tax Cap Coalition was 760 members strong in mid-July, and continues to add members every day. Siena (College) Research Institute conducted a poll in June that showed 74% of residents statewide support a property tax cap, and Coalition members put faces and voices to that statistic.

On the Coalition's "Members" web page (www.taxcapnow.org/members/), you will find quotes from New York State residents who have shared their stories with the Coalition. Quotes are updated often, as there are many stories to tell.

Also on the Members page is a constantly updated sampling of the individuals, businesses and associations who have joined the Coalition. This sampling changes on page refresh.

Check back often to see who else supports the property tax cap, and what your neighbors and colleagues have to say about their own property tax experience.
